

# BOIL WATER NOTIFICATION

## CITY OF SOUR LAKE

**February 4, 2025**

This is to inform you due to a water line being damaged and the loss of pressure due to this the Texas Commission on Environmental Quality has required the City to notify customers to boil their water prior to consumption. To insure destruction of all harmful bacteria and other microbes, water for drinking, cooking, and ice making should be boiled and cooled prior to consumption. The water should be brought to a vigorous rolling boil and then boiled for two minutes. In lieu of boiling, you may purchase bottled water or obtain water from some other source. When it is no longer necessary to boil your water, water system officials will notify you.

If you have any questions regarding this matter you may contact City Hall at 409-287-3573.
